Supplementary Table 1. Justification of Global Targets

Indicator	Unit	Global Target	Justification
Diets, Nutrition, and Health			
Prevalence of undernourishme	% population	0.0	Right to Food (ICESCR Article 11) and Zero Hunger (SDG 2)
Experience food insecurity	% population	0.0	Right to Food (ICESCR Article 11) and Zero Hunger (SDG 2)
Cannot afford healthy diet	% population	0.0	Economic Accessibility dimension of Right to Food (CESCR General Comment No. 12)
Unhealthy food consumption	% population	0.0	Right to Health (ICESCR Article 12) and WHO NCD prevention Framework
Zero fruits or vegetables, child	% population 6-23 months	0.0	Children's Right to Nutrition (CRC Article 24) and Zero Hunger (SDG 2)
Zero fruits or vegetables, adult	% adult population (≥15 y)	0.0	Right to Food (ICESCR Article 11) and Zero Hunger (SDG 2)
Access to safe water	% population	100.0	UN Human Right to Water and Sanitation (UNGA Resolution 64/292)
Minimum dietary diversity, child	% population, 6-23 months	100.0	Children's Right to Nutrition (CRC Article 24) and Zero Hunger (SDG 2)
Minimum dietary diversity, women	% population, women 15-49	100.0	Right to Food (ICESCR Article 11) and Zero Hunger (SDG 2)
All 5 food groups	% adult population (≥15 y)	100.0	Right to Food (ICESCR Article 11) and Zero Hunger (SDG 2)
Protective food consumption	% population	100.0	Right to Health (ICESCR Article 12) and WHO NCD prevention Framework
Fruit availability	grams/capita/	400.0	Based on targeted daily intake of 400 grams of fruits and vegetables daily (WHO recommendation).
Vegetable availability	grams/capita/	400.0	Based on targeted daily intake of 400 grams of fruits and vegetables daily (WHO recommendation).
Environment, Natural Resources, and Production			
Food system emissions change	Percent change relative to 2000-2010 country average baseline	0.0	Paris Agreement (Article 4) commitment to climate neutrality
Cropland change	%	0.0	Kunming-Montreal Global Biodiversity Framework Target 1 (land-use change reduction)
Fisheries health index	index	100.0	Theoretical maximum (SDG 14.4; Kunming-Montreal GBF Target 10; FAO Code of Conduct for Responsible Fisheries)
Functional integrity	% agricultural land	100.0	Kunming-Montreal Global Biodiversity Framework Target 10 (sustainable agriculture)
Livelihoods, Poverty, and Equity			
Child labor	% children 5-17 (sex specific is % children 5-17 of that sex)	0.0	Protection from Economic Exploitation (CRC Article 32, ILO Convention 182)
Female landholdings	% landholdings by sex of operator	50.0	Women's Equal Rights to Economic Resources (CEDAW, SDG 5.a)
Social protection coverage	% population	100.0	Right to Social Security (UDHR Article 22, ICESCR Article 9)
Governance			
Civil society participation	index	2.5	Theoretical maximum and Inclusive governance (SDG 16.7)
Government effectiveness index	index	2.5	Theoretical maximum and Effective institutions for sustainable development (SDG 16.6)
Accountability index	index	2.5	Theoretical maximum (SDG 16.7; Paris Agreement Enhanced Transparency Framework)
Open budget index	index	100.0	Theoretical maximum (SDG 16.6; UN Convention Against Corruption)
Food safety capacity	Score	100.0	Theoretical maximum (SDG 2.1 – Universal Access to Safe and Nutritious Food)
Resilience			
Food price volatility	index	0.0	Theoretical minimum (SDG 2.C; Committee on World Food Security Recommendations)
Reduced coping strategies	% population	0.0	Theoretical minimum (SDG 1.5 – Build resilience of those in vulnerable situations)
Dietary sourcing flexibility	index	1.0	Theoretical maximum (SDG 2.4; FAO's Sustainable Food and Agriculture Principles)
Social capital index	index	1.0	Theoretical maximum (SDG 11.3 – Inclusive and Sustainable Urbanization)
Mobile phones	Number per 100 people	100.0	Theoretical maximum (SDG 9.c; International Telecommunication Union)
Minimum species diversity	% agricultural land	100.0	Theoretical maximum (SDG 15.1; Convention on Biological Diversity; Kunming-Montreal GBF Target 9)
